

You might not save the world, but can definitely help your "SAVTA" :)

Install "HelpSavta" on savtas mobile. login with "savta" details: "age, language, address, floor, **health situation and limitations (!?)**" grant access to "camera, system...." maybe to build simple android UI/theme specially for SAVTA(!?)

Multichannel:
Alexa
GoogleHome
Any IOT device

1. click on microphone
2. app BOT asks "ma kara savta?" + language problem! if no REP for SavtasLanguage, ask "for more language"

Technical problem

mobile phone problem

savta: " phone makes troubles"
4. identify phone model and OS
5. routing to REP (identified as responsible for this phone)

TV "HOT. YES...."

savta: " TV...."
identify TV provider
routing to REP (identified as responsible)

Computer

savta: " can't operate my computer"
routing to REP (identified as responsible)

home appliances

TBD

Emergency

I need doctor/help me.....

MADA
(conference call)
rep+Savta+mada
+SMS to kids

"I need food but don't have money"

Psychology/IRIYA
